Student Assistance Program 2015-2016

Dear Parent or Guardian of _____,

I am writing to inform you that our Student Assistance Program is offering supportive services for the 2015-2016 school year. The Student Assistance Program incorporates a team approach that includes: school social worker, school psychologist, school counselors, school nurse, and administrators. Our team members have extensive experience, education, and training providing supportive services to our students. In addition, our Student Assistance Program has established partnership with community agencies such as Turtle Creek Valley, Family Links, Milestones Centers, Inc., Family Services of Western Pennsylvania, and Gateway Rehabilitation Center to further support out students and help minimize any students "barriers to learning".

The Student Assistance Program represents all grade levels and specialty classes, so the contact with a student occurs in a variety of situations. This allows for informal conversations, active listening, and genuine concern for students as individuals. Student(s) are assured that confidentiality guidelines will occur and that open communication between our team, students(s) and parent(s) are essential.

In order for the SAP team to further assess and assist your child in addressing any academic, personal, or social issues, your signature is required. If you have any questions, please contact their school counselor. Please return this for as soon as possible.
